Welcome to the Hahn Vocal Music Program. We are continuing to implement a program by creating a gender specific choir so the boys and girls have an environment to develop their voices with singers of the similar voice type and sing music that is better suited for their vocal ability. During the second marking period the girls from 1st semester will be in vocal music while the boys are in Phys. Ed. Class.

The girls in first semester vocal music will present the concert "Friends for Life"

Through this music students will study

•**Basic elements of Music** (ex. Tempo/Articulation/Dynamics/Tone Color/Pitch/Rhythm)

•**Basic concepts and skills of Choral Music** (ex. Vocal production, breathing techniques, reading music and choral octavos)

These elements will not only be studied on paper and video, but they will also be demonstrated live and performed by the students.
